DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks/Discussion of Issues, filed 03/05/2007, with respect to claims 1-4 have been fully considered and are persuasive. The rejections of claims 1-4 have been withdrawn.

Allowable Subject Matter

2. Claims 1-6 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The allowable subject matter in claims 1 and 2 pertains an amplitude –phase controller for controlling an amplitude and phase of an input transmission base-band signal to from a controlled signal; an out-band power calculator for computing an out-band power outside of a transmission band from the frequency spectrum signal, the out-band power corresponding to a distortion component of the power amplifier; an error coefficient calculator for computing an error characteristic, the error characteristic computed based on the out-band power from the out-band power calculator and the selected characteristic from the fixed coefficient storage; and an amplitude –phase change calculator for computing an amplitude change and a phase change based on the selected characteristic from the fixed-coefficient storage and the error characteristic from the error coefficient calculator, and instructing the amplitude-phase controller to carry out the control based on the amplitude change and the phase change, which reads over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
